**Crop Management:**
- **CT** Conventional tillage
- **NT** No till
- **DCT** Doublecrop - conventional
- **CMT** Doublecrop - no till
- **NS** New seeding
- **R** Renovation

**Crop Management (cont):**
- **ATD** Annual top dressing
- **HP4** Hay or pasture less than 4 yrs
- **HP4+** Hay or pasture 5 yrs or longer

**Crop Use:**
- **G** Grain
- **S** Silage
- **T** Tobacco
- **H** Hay
- **P** Pasture
- **HP** Horse pasture

**Crop Use (cont):**
- **SP** Seed production
- **SG** Silage-grain (doublecrop)
- **GG** Grain-grain (doublecrop)
- **SZ** Silage-silage (doublecrop)
- **CC** Cover crop

**Soil Drainage:**
- **WD** Well drained
- **MWD** Moderately well drained
- **SPD** Somewhat poorly drained
- **PD** Poorly drained
- **PT** Poorly, but tiled

### Crop Management Options

- Alfalfa
- Alfalfa/Grass
- Barley
- Barley/Soybeans
- Bermudagrass, common
- Bermudagrass, improved
- Birdfoot Trefoil
- Bluegrass
- Bluegrass/White Clover
- Bluestem
- Buffer or Filter Strip
- Burley Tobacco
- Canola
- Canola/Soybeans
- Clover/Grass
- Cool Season Grass
- Corn
- Crownvetch
- Dark Tobacco
- Fescue
- Fescue/Lespedeza (multiple)
- Fescue/White Clover
- Forage Crops (multiple)
- Forage Sorghum
- Grain Crops (multiple)
- Grain Sorghum
- Indiangrass
- Lespedeza
- Lespedeza/Grass
- Millet
- Native Grassland Restoration
- Oats
- Oats/Soybeans
- Orchardgrass
- Orchardgrass/Red Clover
- Orchardgrass/White Clover
- Other
- Red Clover
- Red Clover/Grass
- Ryegrass
- Ryegrass/Soybeans
- Side-oats grama
- Small Grains
- Small Grains/Corn
- Small Grains/Soybeans
- Sorghum/ Sudangrass
- Soybeans
- Sudan grass
- Sunflower
- Switchgrass
- Timothy
- Timothy/Red Clover
- Tobacco Beds
- Triticale

- **a.** Choose conventional tillage or no tillage.
- **b.** Only needed if forage was previous crop.
- **c.** Choose new seeding, renovation, or annual top dressing. Renovation is the seeding of legumes (clover or lespedeza) in an established grass stand.
- **d.** Only needed if tobacco was previous crop.
